135	Acquisition	In the IGC Q&A posted as of 8 February 2008, the answer to question # 129 indicates the draft Interface Design Description Document for Spiral 1 shall be delivered nominally 90 days after Contract Award; however, Spiral 1 does not start until October 1, 2008. According to the System Engineering methodology as described in the PWS, IDD is a deliverable in the Functional Phase. Is it Government's intent to move the Spiral 1 requirement for IDD into the Transition Planning or should the IDD be delivered within 90 days of Spiral 1 start?	The Table of References has been updated to modify the timeframe for several deliverables to correlate with specific events. The time specified for delivery of the IDD now requires: "Initial Draft for each source system delivered NLT 30 days after completion of the Functional Phase."
